

Profile Summary			
Data Analyst with 2+ years of experience delivering reliable, insight-driven reporting using SQL, Excel, Power BI, and Python. Strong expertise in data cleaning, validation, and transformation, ensuring accurate and consistent datasets for analysis. Proficient in Power Query, DAX, PivotTables, and Python (Pandas, NumPy) to support exploratory analysis and reporting automation. Experienced in building interactive dashboards and KPI reports to support operational decision-making. Known for a detail-oriented approach, analytical problem-solving, and clear communication with stakeholders.			
Education			
Course	Institution Name	Board/University	Year
Master of Computer Applications (MCA)	Indira Gandhi National Open University	IGNOU	2025 - 27
Diploma in Polymer Technology	Guru Nanak Dev Institute of Technology	DSEU	2018 - 21
Bachelor of Arts (B.A.)	Indira Gandhi National Open University	IGNOU	2017-22
ClassXII (PCM)	Vanasthali Public School	CBSE	2016-17
Class X	Vanasthali Public School	CBSE	2014-15
Work Experience			
Data Analyst Regent Engineers Ghaziabad, Uttar Pradesh			12/23- Present
- Created Excel-based operational reports using PivotTables and formulas to track performance metrics and support daily decision-making. - Built and maintained Power BI dashboards for KPI tracking, enabling management to monitor operational status in real time. - Used SQL queries to extract, filter, and analyze data from internal databases for reporting and analysis purposes. - Performed data cleaning and validation to ensure accuracy and consistency across Excel reports. - Supported management by translating business requirements into clear analytical reports and insights.			
Reporting Analyst Regent Engineers Ghaziabad, Uttar Pradesh			07/21 – 11/23
- Created Excel-based operational reports using PivotTables and formulas to support daily decision-making. - Maintained MIS reports and assisted teams with regular data updates and tracking. - Prepared MS Word reports and presentations for management review and internal communication. - Coordinated with internal teams to collect, validate, and consolidate reporting data.			
Junior Engineer – Intern Shamsons Polymers Private Ltd. Ghaziabad, Uttar Pradesh			12/20– 01/21
- Conducted product testing and quality inspections for polymer products to ensure compliance with required standards. - Assisted in material characterization and mechanical testing, recording observations and test results. - Compiled and analyzed test data reports, presenting findings to senior engineers to support process evaluation.			
Position of Responsibility			
Member– Event Management MINI TROIKA– Technical Club GNDIT, DSEU			02/19– 05/21
- Directed and executed 10+ events, including workshops, gaming tournaments & tech exhibitions, enhancing participant engagement and experience. - Collaborated with cross-functional teams to oversee logistics and on-site operations, ensuring smooth and successful event delivery.			
Projects			
Sales Analytics Dashboard - Excel Project Link			
- Cleaned and analyzed large datasets using Excel functions like VLOOKUP, SUMIFS, and INDEX-MATCH to ensure data accuracy. - Created dynamic PivotTables and interactive dashboards to visualize sales trends, customer behavior, and store-wise performance. - Used slicers and charts to explore insights into order timings, payment methods, and product category popularity.			
Employee Performance & Benefits Analytics - SQL Project Link			
- Developed a normalized SQL database to analyze employee salary trends, performance ratings, and benefits enrolment across departments. - Used advanced SQL queries using joins, subqueries, and aggregates to identify top performers, salary gaps, and promotion candidates. - Ensured data integrity and optimized operations by managing foreign key constraints and handling cascading updates/deletes.			
Weather & AQI Dashboard – Power BI Project Link			
- Built an interactive Power BI dashboard using real-time data from WeatherAPI to track weather and air quality metrics across Indian cities. - Utilized Power Query for API response normalization, unit conversion, and field transformation for consistent visualization. - Designed dynamic visuals: AQI category color mapping, rain forecasts, pollutant-level alerts, and city-wise toggling for comparative insights. - Implemented DAX-based KPIs and logic for AQI levels, wind speed units, and forecast summaries to enhance user understanding.			
Skills			
Technical Tools: SQL, MS Excel (PivotTables, Advanced Formulas), Power Query			
Data Analysis & BI: Power BI, ETL, Data Cleaning, Data Validation, Exploratory Data Analysis (EDA), KPI Reporting, Dashboarding			
Programming & Analysis: Python, Pandas, NumPy, Matplotlib, Jupyter Notebook			
Professional Skills: Analytical Thinking, Problem Solving, Attention to Detail, Team Collaboration			
Certifications			
Advanced Microsoft Excel – Udemy			
Python – Udemy			
SQL (Intermediate) – HackerRank			
Languages			
English and Hindi
