Data Analyst with expertise in SQL, Power BI, and Excel, experienced in transforming complex business data into actionable insights through dashboard development, reporting automation, and analytical solutions. Skilled in KPI analysis and data-driven problem-solving to support operational efficiency, business performance, and strategic decision-making across cross-functional teams.

WORK EXPERIENCE

Data Analyst | Regent Engineers | Ghaziabad, Uttar Pradesh **Dec 2023 – Present**

- Developed interactive KPI dashboards in Power BI and Excel to improve operational visibility, monitor business performance, and support leadership decision-making.
- Automated recurring reporting workflows using Power Query, PivotTables, and advanced Excel functions, reducing manual reporting effort and improving report turnaround time by ~25%.
- Wrote SQL queries using joins, aggregations, subqueries, and CTEs to analyze 50k+ row operational datasets for business analysis and performance tracking.
- Consolidated, validated, and transformed multi-source business data to improve reporting accuracy and ensure reliable insights.
- Standardized KPI calculation logic and reporting formats across teams to improve consistency and data reliability.

Reporting Analyst | Regent Engineers | Ghaziabad, Uttar Pradesh **Jul 2021 – Nov 2023**

- Managed recurring business reporting processes tracking 10+ operational and performance KPIs for weekly and monthly leadership reviews.
- Collaborated with sales, operations, procurement, and support teams to collect, validate, and consolidate multi-source business data for management reporting and performance analysis.
- Improved reporting workflows by restructuring multi-file data consolidation activities, reducing repetitive manual effort and improving reporting turnaround time by ~20%.
- Designed automated Excel templates and summary dashboards using PivotTables, lookup functions, and formulas to improve reporting consistency and operational efficiency.

Junior Engineer– Intern| Shamsons Polymers Private Ltd. | Ghaziabad, Uttar Pradesh **Dec 2020 – Jan 2021**

- Conducted product testing and quality inspections to ensure adherence to technical standards.
- Analyzed test data and prepared structured reports to support quality improvement initiatives.

PROJECTS

Sales Analytics Dashboard | Excel | Project Link

- Developed an interactive Excel dashboard using PivotTables, slicers, and charts to analyze sales trends, category performance, and customer purchasing behavior.
- Analyzed transaction-level sales data to identify top-performing product categories, peak ordering periods, and weekday demand patterns supporting business performance analysis.

Employee Performance & Benefits Analytics | SQL | Project Link

- Designed a relational HR database and wrote SQL queries using joins, aggregations, subqueries, and window functions to analyze employee salary, bonus, and benefits data.
- Identified promotion-eligible employees, compensation trends, and benefits enrollment gaps through SQL-driven workforce analytics and KPI analysis.

Weather & AQI Dashboard | Power BI | Project Link

- Developed a real-time Power BI dashboard integrating external API data to monitor weather conditions and AQI levels across multiple cities.
- Created interactive KPI visuals, AQI indicators, and city-wise comparison dashboards using Power BI, DAX, and Power Query.

EDUCATION

Master of Computer Applications (MCA) — IGNOU
Bachelor of Arts (BA) — IGNOU

SKILLS

Technical Skills: SQL (MySQL, PostgreSQL), Advanced Excel (PivotTables, Power Query, Lookup Functions), Power BI (DAX, Data Modeling), Python (Basics), Snowflake (Beginner)
Analytical Skills: Dashboard Development, Reporting Automation, Business Data Analysis, Operational Reporting, Performance Tracking

CERTIFICATIONS

SQL (Intermediate – HackerRank) | Advanced Excel
